

The way email was meant to be.

CASE STUDY

SIMPLE HOSTING

EMAIL SECURITY IN THE CLOUD OR ON-PREMISES INCOMING » OUTGOING » ARCHIVING

Local Cloud » SaaS Managed Email Security on your own servers »
API » Cluster-able » Synchronized » Frontend

Due to the surge of spam and growing regulations, a robust email security is a necessity for any webhost and its clients. However, many email security appliances are not redundant and scalable, and require you to overpay for hardware. Get email security optimized instead! Deliver premium email security, by using the redundant, scalable and synchronized SpamExperts Local Cloud, installed on your own dedicated (virtualized) hardware!

Quick Read

Simple Hosting GmbH is a Swiss Web Hosting Provider with a Linux -and Windows Hosting Server Farm. Specialized in ASP.net and PHP hosting, Simple Hosting also offers a Reseller Hosting Program. What's more, Simple Hosting is devoted to take good care of their customer's personal data, stored in Glattburg on high performance servers and is constantly protected.

Challenges

Before becoming partners with SpamExperts, Simple Hosting already had an anti-spam mechanism in place, so spam was not the main issue. However, the lack of redundancy prompted Simple Hosting to look for another solution.

simplehosting

Customer profile

Company	Simple Hosting GmbH
Location	Rümlang, Switzerland
Industry	Hosting, Webhosting, Reseller Hosting
Number of Domains	950
Products in Use	Local Cloud, Incoming -and Outgoing Filtering, White label
Website	www.simplehosting.ch

Implementation

Simple Hosting needed an in-house anti-spam solution, which was redundant, so Simple Hosting chose for the SpamExperts fully managed Local Cloud, which was installed on their own hardware. Moreover, Simple Hosting extended their activities by upgrading to the white label and outgoing filtering after some months. According to Simple Hosting, the SpamExperts Team supported them *“Perfect”* during the implementation.

Benefits

The implementation of SpamExperts in their own hosting infrastructure resulted in **simplified maintenance**, as SpamExperts installs, monitor 24/7, updates and maintains Simple Hosting’s email security system.

Moreover, SpamExperts is currently **getting rid of spam -and viruses** and securing Simple Hosting’s network by offering a **redundant solution, which ensures high availability and reliability** of Simple Hosting’s services.

Target Reached

“As a Web Hosting Provider, we strive to provide the best solution, that suits our client needs. We are a client of SpamExperts since 2010, and since then we have been extremely pleased with the level of quality, performance and service they provide. SpamExperts’ technology is reliable –and accurate and a recommendable anti-spam solution for all our clients”, says Chris Mayer, CEO at Simple Hosting GmbH.
